QUOTATION INFORMATION - ABB FLOW METER

Applicable for: Coriolis Meter, Magmeter, Vortex Meter, Swirl Meter, Wedgemeter, Integral Orifice, Pitot Tube, Orifice

In order to expedite a quote, please fill in as much information as possible and transmit to your local ABB Representative

BUYER INFORMATION	
Contact Name:	Phone:
Company Name:	Country:
City:	State:
PRODUCT SPECIFICATION	
End User:	Country:
Technical Contact Name:	Phone:
Desired Flow Meter Model/Type (Technology):	
Pipe (line) Size and Schedule:	
Desired Process Connection (Type, size, rating, material type): (Flanged, NPT, Socket Weld, wafer, ANSI 300, SST, etc.)	
Hazardous Area Agency (FM, CSA, ATEX, etc.):	
Method of Protection (XP, Intrinsically Safe, Non-Incendive, etc):	
Other Approvals (CRN, RETIE, SIL2, etc.):	
Fluid Name:	Fluid Type (liquid, gas, steam, (sat), etc.):
Flow Calculations Based on:	Actual Normal Standard
Flow Rate (min, max, operating point):	
Units:	
Density or Specific Gravity (min, max, operating):	
Units:	
Dynamic Viscosity (min, max, and operating point)	
Units:	
Process Medium Temperature (minimum, design, operating point):	
Units:	
Ambient Temperature:	
Units:	
Pressure (minimum, design, operating point):	
Units:	

SPECIFICATIONS OF METER	
Rate of Flow	Steady Pulsating
Batch Operation:	Yes No
Transmitter Design:	Integral Mount Design Remote Mount Design*
*If remote, what length cable, in meters:	
Required Output Signal (HART, FF, Profibus):	
Power Supply (24v, 110v, 220v):	

Additional Comments/Concerns:
